HER KIDNEYS KILLING HER "FRUIT-A-TIVES" SAVES HER

Cianbrassie, Ont.

Two years ago, the doctor made forty-four calls on me and then said he had done all he could for me. I was suffering with intense Kidney Trouble and severe inflammation had set in. Two other doctors were consulted and agreed that nothing could be done to help me.

On the recommendation of a neighbor, I took "Fruit-a-tives" and they cured me. To-day, I take "Fruit-a-tives" as my only medicine. I am in excellent health and "Fruit-a-tives" is the medicine that cured me after I had been at death's door for months.

I am glad to be able to give you this testimonial. It may benefit some other woman suffering as I suffered, as I believe that I would not be alive to-day had I not used "Fruit-a-tives."

Which is Your Choice?

Sloppy, leaky wooden troughs, or clean, durable Concrete?

Wooden drinking troughs are about as reliable as the weather.

They are short-lived and require replacing every few years—not to mention continual patching to keep them in repair.

The best of wood cannot withstand, for long, constant dampness and soaking. Its tendency to rapid decay soon shows itself in leaks and stagnant pools of water around trough.

Contrast with this the durability, cleanliness and well-ordered appearance of Concrete.

Which?

The dampness which destroys lumber only intensifies the strength and hardness of Concrete.

You can impair a wooden trough with comparatively little use; but it takes a powerful explosive to put a Concrete water tank out of business.

Which

is your choice—expense-producing Wood, or money-saving Concrete?

Rhodes Scholarships

In the will of the late Mr. Cecil Rhodes provision was made for a scholarship for the North West Territories. Up to the present time the trustees of the will have not been prevailed upon to provide for a scholarship for each of the two new provinces of Alberta and Saskatchewan and in the meantime arrangements have been made whereby Rhodes' scholars are selected by Alberta and Saskatchewan for alternative years. The selection for the year 1911 is to be made by Alberta and the trustees asked that the election should be completed by the first day of January, 1911.

Elected scholars will begin residence at Oxford in October of the year for which they are elected. Each scholarship is tenable for three years, and is of the value of \$1500 per annum. Candidates must be British subjects and unmarried. They must have passed their nineteenth, but not have passed their twenty-fifth birthday, on October 1st of the year for which they are elected. An elected scholar must have reached at least the end of his sophomore or second year's work at some recognized degree-granting University or College of Canada. Candidates may apply for the scholarship of the province in which they have acquired any considerable part of their education qualifications or for that of the province in which they have their ordinary private domicile, home or residence. No candidate may compete in more than one province, either in the same or in successive years. Only candidates who have passed the equivalent to the Oxford Responsions including Greek or those who are exempted from Responsions by the Colonial Universities' Statute, are eligible for election. To aid in making a choice each qualified candidate is required to furnish to the Committee of Selection—

(a) A certificate of age; (b) a full statement of his educational career at school and college; his record in athletics, and such testimonials from his teachers at school and his professors at college, in reference to the qualities indicated by Mr Rhodes, as will assist the judgment of the Committee of Selection.

Candidates will find extracts from the will of Mr Rhodes included in the Annual Reports of the Department of Education for Alberta, and a copy of this Report will be forwarded upon request.

All applications from candidates for the 1911 Scholarship, with full particulars, must be in the hands of D S MacKenzie, Deputy Minister of Education, Edmonton, not later than December 24th, 1910.

Prohibition in Missouri was defeated this week at the election by 218,125, according to the official count. It was received 207,406 against it and carried only 37 of 115 counties.

Close Season For Elk

The close season for elk which expired on the first day of November has been renewed.

Sportsmen and others who wish to comply with the provisions of the Game Act will therefore refrain from hunting or shooting elk after the first day of December.

Any person who hunts, traps, takes, shoots at, wounds or kills any elk after the above mentioned date will be liable to the penalties mentioned in the Game Act.

Current Events

The one year old town of Acme is to have the streets lighted by electricity. At a mass meeting held last week it was decided to ask a local firm who are putting in a dynamo for their own use to supply the electricity for street lamps.

With the beginning of 1911 Strathmore, provided the legal formalities are carried through without hitch, will assume the status of a town, a status which the rapid growth of the past two years have permitted it to assume. This decision was come to at a largely attended meeting of the ratepayers held last week.

An open season for beaver between December 15 and March 10 of next year was declared by order in council of the lieutenant-governor on Saturday last. This course is being taken in accordance with the provisions of the game act of Alberta. It applies only to that portion of the province north of the 55th parallel.

The first of the four winter mails to leave Edmonton for the far north during the season of 1910-11 was sent out from the post office there Tuesday morning. In the mail bag were letters and papers destined for Herschel Island in the Arctic Ocean east of the mouth of the McKenzie river, where a mounted police force is established. The mail for this most northerly post will reach its destination about April 15, 1911.

(Continued.)

In the conference which followed the return of the searchers it was settled that three of the original party should undertake the further prosecution of the hunt for the two heirs. Lord Deppingham found ready volunteers in Chase and the faithful Selim. They prepared to go out in the hills before the night was an hour older. Selim convinced Chase that the wily Rasula would carry his captives to the mines, where he was in full power.

"You're right, Selim. If he's tried that game we'll beat him at it. Ten to one if he hasn't already chucked them into the sea they're now confined in one of the mills over there."

They were ready to start in a very short time. Selim carried a quantity of food and a small supply of brandy. Each was heavily armed and prepared for a stiff battle with the abductors.

"We seem constantly to be saying goodbye to each other." Thus spoke the princess to Chase as he stood at the top of the steps waiting for Selim. The darkness hid the wan, despairing smile that gave the lie to her sprightly words.

"And I'm always doing the unexpected thing—coming back. This time I may vary the monotony by failing to return."

"I should think you could vary it more pleasantly by not going away," she said. "You will be careful?"

"The danger is here, not out there," he said meaningly.

"You mean me? But, like all danger, I soon shall pass. In a few days I shall say goodbye forever and sail away."

"How much better it would be for you if this were the last goodbye and I should not come back!"

"For me?"

"Yes. You could marry the prince without having me on your conscience forevermore."

"Mr. Chase?"

"It's easier to forget the dead than the living, they say."

"Don't be too sure of that."

"Ah, there's Selim! Goodbye! We'll have good news for you all, I hope, before long. Keep your eyes on Neenah. She and Selim have arranged a set of signals. Don't lie awake all night, and don't pray for me," he scoffed, in reckless mood.

The three men stole out through the small gate in the upper end of the park. Selim at once took the lead. They crept off into the black forest, keeping clear of the mountain path until they were far from the walls.

The starlight filtered down through the leafy canopy above the road, increasing rather than decreasing the density of the shadows through which they sped. None but strong, determined, inspired men could have followed the pace set by the lithe, sure-footed Selim.

Mile after mile fell behind them with no relaxation of energy or purpose. They were coming to the ridge road, and Selim fell back to explain the need for caution. This was the road, in all likelihood, he explained, that the abductors would have used in their flight from the cavern. Two miles farther south it joined the wide highway that ran from Ararat to the mines.

Selim crept on ahead to reconnoiter. He was back in ten minutes with the information that a party of men had but lately passed along the road toward the south. Their footprints in the soft, untraveled road were fresh. The stub of a cigarette had scarcely burned itself out.

They broke away from the road and took a less exposed course through the forest to their right, keeping well with-

in earshot of the ridge, but moving so carefully that there was slight danger of alarming the party ahead.

At last the sound of voices came to the ears of the pursuers. As they crept closer and closer they became aware of the fact that the party had halted in the roadway at the point where a sharp defile through the rocks opened a way down into the valley. Like snakes the pursuers wriggled their way to a point just above the small basin in which the party was congregated.

A great throb of exultation leaped up from their hearts. In plain view, at the side of the road, were the two persons for whom they were searching. "Good luck is with us," whispered Chase unconsciously.

Lady Agnes, disheveled, her dress half stripped from her person, was seated upon a great bowlder, staring hopelessly, lifelessly, at the crowd of men in the roadway. Beside her stood a tall islander, watching her and at the same time listening eagerly to the dispute that went on between his fellows. She was not bound. Her hands and feet and lips were free.

Bobby Browne was standing nearby. His hands were tightly bound behind his back. His face was blood covered, and the upper part of his body was almost bare, evidence of the struggle he had made against overwhelming odds. He was staring at the ground, his head and shoulders drooping in utter dejection.

Three of the treasure chests were standing beside the road, affording seats for as many weary carriers. It was all quite plain to Chase. Rasula and his men had chanced upon the two white people during one of their trips to the cave for the purpose of removing the chests.

Rasula was haranguing the crowd of men in the road.

"It is the only way!" he was shouting angrily. "We cannot put them to death until we are sure that the others have no chance to escape to England. I am a lawyer. I know what it would mean if the story got to the ears of the government. We have them safely in our hands. The others will soon die. Then—then there can be no mistake! They must be taken to the mines and kept there until I have explained everything to the people. Part of us shall conduct them to the lower mill and the rest of us go on to the bank with these chests of gold."

Rasula and six of the sturdiest men prepared to continue the journey to Ararat, transporting the chests. Five sullen, resentful fellows moved over beside the captives and threw themselves down upon the grassy sward. "We will wait here till day comes," growled one of them defiantly. "Why should we risk our necks going down the pass tonight? It is 1 o'clock. The sun will be here in three hours. Go on!"

"As you like, Abou Dal," said Rasula, shrugging his pinched shoulders. "I shall come to the mill at 6 o'clock." Turning to the prisoners, he bowed low and said, with a soft laugh: "Adios, my lady, and you, most noble sir. May your dreams be pleasant ones. Dream that you are wedded and have come into the wealth of Japan, but spare none of your dream to the husband and wife who are lying awake and weeping for the foolish ones who would go searching for the forbidden fruit. Folly is a hard road to travel, and it leads to the graveyard of fools. Adios!"

Lady Agnes bent over and dropped her face into her hands. She was trembling convulsively. Browne did not show the slightest sign that he had heard the galling words.

At a single sharp command the six men picked up the three chests and moved off rapidly down the road, Rasula striding ahead with the flaring torch.

They were barely out of sight when Deppingham moved as though impulse was driving him into immediate attack upon the guards who were left behind with the unhappy prisoners. Chase laid a restraining hand upon his arm.

"Wait! Plenty of time. Wait an hour. Don't spoil everything. We'll save them sure," he breathed in the other's ear.

The minutes slipped by with excruciating slowness. The wakeful eyes of the three watchers missed nothing that took place in the little grass grown niche below them. They could have sprung almost into the center of the group from the position they occupied. Two of the men sat with their backs to the rocks, their rifles across their knees. The others sprawled lazily upon the soft grass. Two torches stuck in the earth threw a weird light over the scene.

Bobby Browne was now lying with his shoulder against a fallen tree trunk, staring with unswerving gaze at the woman across the way. She was looking off into the night, steadfastly refusing to glance in his direction.

Then suddenly Lady Agnes arose to her feet and lifted her hands high toward the black dome of heaven, Salambo-like, and prayed aloud to her God, the sneering islanders looking on in silent derision.

YOU CAN SEE HOW IT HEALS

No Question or Doubt as to the Healing Power of

Dr. Chase's Ointment

To people who have used internal treatment in an effort to cure eczema it is almost beyond belief what benefit can be obtained by a few applications of this soothing, healing ointment.

It is seldom that the cause of eczema can be determined, but one thing is certain, the itching must be stopped and the sores healed up.

These results are secured by the use of Dr. A. W. Chase's Ointment. The itching is relieved almost instantly, and you will be surprised at the healing which will take place overnight.

A little patience and persistent treatment with Dr. Chase's Ointment will give you more practical and definite results than a whole lot of dosing with internal medicines. You can see how the Ointment heals. The other is guesswork.

Mr. Geo. Peterson, South Bay, Ont., writes:—"I wish to communicate to you the great benefit I received from using Dr. A. W. Chase's Ointment. For years I suffered with a great skin disease on my head, a sort of eczema. I tried four doctors, giving each a fair trial, but got no better. In fact the disease spread to my left arm."

"I saw Dr. Chase's Ointment advertised and began using it. Persistent use of this treatment has entirely cured me, and I give you a statement of my case with pleasure, as I hope thereby to induce some other sufferer to try the same Dr. Chase's Ointment."

Because this ointment has made its world-wide reputation by curing the most severe and long-standing cases of eczema and piles is no reason why you should overlook its scores of uses in the relief of itching and irritation of the skin.

THE SUNDAY SCHOOL

LESSON IX.—FOURTH QUARTER, FOR NOV. 27, 1910.

Text of the Lesson, Matt. xxvi, 57-63.

Memory Verse, 64—Golden Text, 1

Pet. ii, 23—Commentary Prepared by Rev. D. M. Stearns.

A great awe should be upon us as we read or write or think upon these things. Behold the Son of God yielding Himself for our sakes to sinful men. See the hatred of men to God and the proof that the carnal mind is enmity against God. As they came to take Him in the garden He went to meet them, saying, "Whom seek ye?" To their reply "Jesus of Nazareth" He said "I am," and they went backward and fell to the ground. He allowed them to rise to approach Him again and to take Him and bind Him and lead Him away to Annas and then to Caiaphas. All the disciples forsook Him and fled, but a young man followed, having just a linen cloth about his naked body, which he left in the hands of his pursuers as they tried to lay hold of him, and he fled naked. We shall have to ask Mark who that young man was, as he alone records it (Mark xiv, 51, 52). It was an opportunity of fellowship with Jesus which he, like the others, missed. Simon Peter and John returned and followed Jesus, John going in to the palace of the high priest, for he was known to him, but Peter remaining without until John spoke to the maid that kept the door and brought in Peter. Then he sat with the servants and warmed himself at their fire. But we must leave his story till next week.

In reply to the high priest's question as to Jesus' doctrine He replied "In secret have I said nothing; . . . ask them which heard me" (John xviii, 15, 24). They brought many false witnesses to testify against Jesus, but none of them agreed in their testimony, not even the two of verse 60. See Mark xiv, 56-59. To the high priest's question, "Answerest thou nothing?" Jesus held His peace, for there was nothing to reply to. In Ps. xxxv, 11, it is written, "False witnesses did rise up; they laid to my charge things that I knew not." Unless you have been similarly ill-treated you cannot imagine how hard it is to put in practice Ps. xxxviii, 13, "I as a deaf man heard not, and I was as a dumb man that openeth not his mouth."

When the high priest said, "I adjure thee by the living God that thou tell us whether thou be the Christ, the Son of God!" (verse 63), then Jesus said, "I am, and ye shall see the Son of Man sitting on the right hand of power and coming in the clouds of heaven" (Mark xiv, 62, with verse 64). Then they judged Him guilty of blasphemy and condemned Him to die. But it was the truth that He spoke, and they shall yet see it, and if they did not repent before they died they shall have to hear His "Depart from Me, ye cursed." After they judged Him guilty of death they mocked Him, blindfolded Him, struck Him on the face, spit in His face and said, "Prophecy unto us, thou Christ, who is he that smote thee?" Even the servants smote Him with the palms of their hands (Mark xiv, 65). When morning was come they bound Him and led Him away and delivered Him to Pontius Pilate, the governor, that he might have Him put to death, their accusation being that he was a malefactor. The result of Pilate's examination of Him was a three or four fold testimony that he found no fault in Him and, according to the harmony, a sevenfold attempt to release Him. Pilate's wife also sent him a message saying, "Have thou nothing to do with that just man, for I have suffered many things this day in a dream because of Him." When Pilate learned that He was of Galilee, which was under Herod's jurisdiction, he sent Him to Herod, hoping thus to be rid of this difficult and perplexing case. But as Jesus answered Herod nothing Herod with his men of war set Him at naught and mocked Him and arrayed Him in a gorgeous robe and sent Him again to Pilate (Luke xxiii, 8-12). There was no imprisonment; there was not unlike some of our modern cases of lynching, except that it had seemingly the sanction of both church and state.

But this man was God, suffering all this and all that followed for me and leaving all His redeemed an example that we should follow in His steps; who, did no sin, neither was guile found in His mouth; who when He was reviled reviled not again; when He suffered He threatened not, but committed Himself to Him that judgeth righteously (1 Pet. ii, 21-23). "He was oppressed, and He was afflicted, yet He opened not His mouth. He is brought as a lamb to the slaughter, and as a sheep before her shearers is dumb, so He openeth not His mouth" (Isa. liii, 7). Being redeemed by His great sacrifice, it is our privilege to suffer with Him, to fill up that which is behind of the afflictions of Christ in our flesh for His body's sake, which is the church (Rom. viii, 17; Col. i, 24), manifesting by His grace the ornament of a meek and quiet spirit, which is in the sight of God of great price (1 Pet. iii, 4). Peter speaks of himself as a witness of the sufferings of Christ (1 Pet. v, 1), and he who once rebelled at the thought of Christ suffering tells us to rejoice if we are partakers of His sufferings (1 Pet. iv, 12, 13).

HOW TO CURE STOMACH TROUBLE

A Great Sufferer from Indigestion Tells How She Was Cured

Stomach trouble is a general name for all forms of indigestion, whether great pain after eating, belching of wind, heavy feeling in the stomach, nausea, or the sharp pains that often make you think you have heart trouble. There are two things noticeable in indigestion. One is, that doctors always find indigestion a prominent symptom in a bloodless run-down state. The other, that sufferers usually find relief when a tonic is taken that restores the general health. Without a doubt stomach trouble is simply stomach weakness, and the cure is to make the stomach strong enough to digest food without trouble. Any other treatment is patchwork and cannot cure. As the processes of digestion are controlled by the blood and nerves, the stomach that is too weak to digest food needs a tonic to give it strength. And in all the world there is no better tonic than Dr. Williams' Pink Pills. They actually make new, rich red blood, tone the nerves and strengthen the stomach and all the bodily functions. We submit the following as proof that Dr. Williams' Pink Pills will cure even the most obstinate cases of stomach trouble. Mrs. John Graf, Fort Saskatchewan, Alta., says: "For years I suffered great torture from indigestion. I took many different medicines, but instead of benefitting me I was growing worse all the time, till my stomach got so bad I could neither eat nor drink without pain. Even cold water would cause me suffering. Nor did I get any relief when the stomach was empty, as I still suffered from a horrid burning pain. I went to Edmonton and consulted one of the best doctors there, but he told me that he could do nothing for me, that all I could do was to diet. For some time I took only hot water and a small piece of brown bread for my meals, but even that did not help me and I got so weak and run down that I despaired of ever being well again. I bought a so-called electric belt and wore it for six months, but it was simply money wasted. Then one day a friend asked me why I did not try Dr. Williams' Pink Pills. I did not know they were intended to cure indigestion, but being assured that they were, decided to try them. I soon found the Pills helping me, but my condition was so bad when I began using them that I continued taking the Pills for about five months before I felt that I was completely cured. Then I could eat any kind of food, and although more than two years have passed since my cure, I have not since had the least sign of the trouble. I can most heartily recommend Dr. Williams' Pink Pills to anyone suffering from this terrible trouble."

Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Where Men are "Pretty."

A British investigator is ungallant enough to state that the reason why women are as a rule of a beauty not attained by men lies in the fact that they are more indolent and not so prone to "exercise their brains" as men are. Intellectual labors and assiduous attention to business are, according to this authority, matters extremely prejudicial to the development of physical beauty.

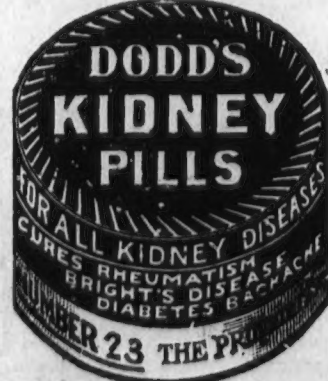

In support of his theory this Briton points to the Zaros, a tribe of British India. Among them, it appears, women hold the place that in other countries is pre-empted by men. The Zaro woman manages the affairs of state, engages in business on her own account and does not restrict herself in the narrow field of woman elsewhere. On the other hand, the Zaro man has nothing to do but cook the meals and look after the children. The natural result of all this, says our scientist, is that the men of this singular tribe are "very pretty" and the women unusually plain.

Has Thirteen Toes.

A hen, the property of a gentleman at Pannal, has hatched a chicken with quite a superior scratching equipment. The happy bird has three legs, the third of which has two feet, and the toes total thirteen. Despite this unlucky number, the chicken so far appears to be strong and healthy, and uses each of its three legs effectively.

TO PROTECT FUGITIVE

LOCAL HOUSE PASSES BILL TO PROTECT FEDORENKO

A Resolution Introduced by C. M. O'Brien to Request the Minister of Justice to Further Investigate the Fedorenko Case, Was Passed in the Local House—First Case of This Kind.

Edmonton, Alta.—The resolution introduced by C. M. O'Brien, Socialist, to request the minister of justice to further investigate the Fedorenko case and to refuse to surrender him to the Russian government if his offence was shown to be of a political nature was passed in the local house without opposition.

The resolution was seconded by Frank Walker, while Bramley, Moore, R. T. Telford and W. F. Puffer also spoke a few words of endorsement. Mr. Moore suggested that if the offence Fedorenko committed was a serious one and he had got 3,000 miles away from the scene of his crime, the Russian government ought to be glad to be rid of him.

Tracing the history of the Fedorenko case, the points Mr. O'Brien impressed were that the offence was of a political character and that according to the treaty with Russia of 1896, political offenders are not liable to extradition and the only offence for which capital punishment was applicable in Russia was a political one, which meant Fedorenko would certainly be subjected to if he was returned. Mr. O'Brien's address was devoid of sentiment or feeling. He merely placed the facts before the assembly in a practical way.

In seconding the motion Mr. Walker stated that the Fedorenko case was the first of its kind in western Canada, as it was charged that a crime which included murder had been committed. There were, however, two Russian political fugitives in Alberta whom the Russian government were very anxious of apprehending. Their offence was probably more serious than Fedorenko's, without consideration of the murder, but the Russian government could not get hold of them for they were under the protection of the British flag and the fugitives greatly appreciated that protection. Mr. Walker read an editorial from the Toronto Globe relative to the case, wherein it was stated that further investigation should be held so as to throw more light on the motive of Fedorenko's crime.

Mr. Telford and Mr. Puffer expressed sympathy with the resolution.

STRUCK BRIAND WITH HIS FISTS

A Young Royalist Landed on the Premier of France Unexpectedly

Paris.—The imposing national ceremonies in the Tuilleries garden on Saturday in connection with the dedication of a statue erected to the memory of Jules Ferry, the French statesman, were marred by an assault upon Premier Briand, who while walking with President Fallieres was struck twice on the face by a Royalist. The premier was not seriously hurt. The vast crowd set upon the premier's assailant and only determined intervention by the Republican Guards saved him from being beaten to death. President Fallieres, M. Briand and the other ministers were walking towards the gateway when a man broke through the road, leaped to M. Briand's side and raising his clenched fists high in the air brought them with full force upon the premier's face. M. Briand reeled under the blows, but did not fall. As friends rushed up to assist him he cried, "I am all right, we must protect my assailant."

SETTLERS WANTED

The British Columbia Conservatives Urge Scheme of Colonization

Nelson, B. C.—The fourth annual convention of the British Columbia Conservative association was concluded at Nelson recently. Amongst resolutions adopted was one calling upon the government to pursue some policy of colonization with the idea of filling British Columbia's fertile valleys with settlers. The convention affirmed the "White British Columbia policy," and wants to see the administration take steps to bring in Old Country people for the land. New Westminster was selected as next year's convention city. Votes of confidence in the government of British Columbia and in R. L. Borden were carried.

Tenders for H. B. Road

Ottawa.—It is understood that the estimates for the coming year will contain a considerable appropriation for the construction of the Hudson's Bay railway.

It is the intention of the government to proceed vigorously next year with the building of the first 150 miles from the Pas, and tenders will be called for this winter. Tenders for the balance of the line will be called for as soon as the route is definitely located.

Two Cities Will Unite

Edmonton.—The Strathcona city council, acting on a petition largely signed by ratepayers decided to ask legislation at the present session of the legislature making it possible to unite with Edmonton, by order-in-council of the government. Amalgamation is expected in the near future.

COUNT TOLSTOI DEAD

His Strength Falls in His Last Effort to Secure Peace—Unreconciled To the Greek Church

Astapova.—Count Tolstoi died here on Sunday. He was unconscious for some time before the end came and failed to recognize his wife when she entered his bedchamber.

It was October 12 when, for reasons that have not yet been fully made clear, Tolstoi fled from his home at Yasnaya Polyana, practically deserting wife and family. To the former he left a note, in which he declared he could no longer live surrounded by luxury, and had fled, in order that he might spend his last days in solitude.

The disappearance was kept a secret for nearly a month, and then the countess, almost distracted by her failure to get any news of her husband's whereabouts, made the fact known.

He had lived for years a most simple life, and this caused general apprehension that his mind might be failing. His friends and members of his family at once organized themselves into searching parties, with the result that on November 12 he was found on the estate of Abrikosov, a wealthy manufacturer, where he had fled.

As a matter of fact, in attempting his flight, Tolstoi, who was 82 years old, over-estimated his powers of endurance and quickly succumbed to the hardships of the winter journey. An inflammation of the lungs set in, and when Dr. Makowski, who had accompanied the count, attempted to get him back home, it was found that he could not even stand the railway journey, comparatively short as it was. He had to be taken from the train at the little station of Astapova, where a lodging was found for him in the hut of a railway trackman. There he was forced to remain, the inflammation of the lungs gradually becoming worse and sapping his vitality, until he could be kept alive only by the constant administration of stimulants to keep up his heart action.

The fact of his excommunication from the Greek Catholic church weighed heavily on the count's mind. In his delirious moments he made constant reference to the fact, and when in possession of his faculties would also refer to it bitterly.

HORSES FOR ALBERTA

Messrs. Turner and Bryce Wright Bring in Best Pure Bred Horses Obtainable in Scotland

Calgary.—John A. Turner of "Balbriggan farm" returned recently from an extended visit to Scotland in company with Bryce Wright of De Winton. During their visit to the Old Country the two Calgary men secured some of the best specimens of Clydesdale horses that could be procured in Scotland.

Mr. Turner brought back twenty-six head of as fine stock as ever came to Calgary, which were purchased from the best breeders of Clydesdales in the Old Country. They consist of choice bred stallions, mares, colts and fillies, which will be valuable additions to the pure bred Clydesdale horses in Alberta. In this connection, the animals imported in the past by Mr. Turner have done a great deal to improve the quality of the horses of the province.

Bryce Wright also brought over on the same steamer seven splendid specimens of Clydesdale mare and fillies. It is very probable that all these animals imported by Mr. Turner and Mr. Wright will be exhibited at the Calgary spring horse show.

DON'T WANT CANADA TO MIX IN

London Press Comment on Colonial Interference in the Approaching Contest

London.—Referring to the coming of Canadian speakers to assist in the British Unionists, the Leader quotes the remarks of Sir Hugh Graham that Canadians are much interested in the coming British elections. "But feel it would be very unbecoming in them to interfere in any way or express any opinion as to the outcome when the English people don't interfere in the domestic affairs of Canada. Consequently the Canadians think the best thing to do is not to meddle in British politics." The Leader says: "It would be unbecoming on our part to add or take anything from this timely and conclusive Canadian criticism on the very latest of our colonial 'missionaries.'" The Canadian Associated Press learns that at a meeting of the Liberal agents four out of 100 voted for an immediate election.

SIR WILFRID LAURIER IS 60

Congratulations From All Parts of the English Speaking World

Ottawa.—Sir Wilfrid Laurier on Saturday celebrated the sixty-ninth year of his birth quietly in his Ottawa home. The premier was the recipient of a large number of congratulatory cables and telegrams including one from King George and another from Premier Louis Botha, of the Transvaal, with whom he formed a close personal friendship at the last colonial conference. On Saturday evening Premier and Lady Laurier gave an "At Home," and a large number of people who were present extended hearty felicitations.

Lethbridge.—Fifteen thousand sheep have been shipped through Counts, Alta., this month by Montana sheepmen to ranches in Alberta and Saskatchewan. Large ranches in that state are selling out completely, not having any feed for this winter.

THE BRITISH ELECTIONS

BRITISH PARLIAMENT WILL BE DISSOLVED ON NOV. 28

Premier Asquith Makes a Strong Speech in the House Dealing with the Veto Question—It is Believed that the Lords will not pass the Second Reading of the Government's Veto Bill.

London.—Anticipating the rejection by the Lords of the bill to reform them, Premier Asquith announced that the house would be dissolved on November 28. That means that the first election will be on or about December 3.

Premier Asquith made a straight, unimpassioned speech in the house, dealing with the whole question. He referred to the veto conference and said that "never had there been a more honest and sustained attempt by men of strong and conflicting conviction to find a basis of agreement on which to build a structure promising stability and endurance." He believed that having failed it would be folly to attempt to make an agreement in the house.

Premier Asquith places it up to the Lords. If they reject the scheme of reform, they declare a dissolution. There will be no compromise.

"The Lords will be given an opportunity to say yes or no to the government's veto bill in the coming week," said the premier.

It is the intention of the government to pass the essential features of the budget, and dissolve parliament on November 28, should the Lords in the meantime reject the veto bill.

The premier also announced that the government proposed next year to bring in a bill for the payment of members.

It is, of course, certain that the Lords will not pass the second reading of the Government's Veto bill and it is now announced that they will probably not discuss it at all. The silence of Premier Asquith with respect to "contingent guarantees," is commented on.

Replying in the house to J. C. Wedgwood, Liberal member for Newcastle-on-Tyne, the Premier said his language of April 14 still represented the intention of the government. He declined and would continue to decline to state what advice he had given or would give the Crown. The King stood aloof from political controversy. With respect to dropping for a time the controversial portions of the budget, the Unionists see in this again the hand of Redmond, they allege.

The dropping of the whiskey tax especially had been done at the demand of the "black angel of political drama," as Mr. Asquith humorously described him.

On the other hand the ministerialists both in parliament and in the press see only the government pressing home the right of the single issue, "Peers versus people."

The first election will probably be held on December 3.

CHILDREN ON LONG TRIP

All the Way to Strathcona from Sheffield, England, Without a Guardian

Strathcona, Alta.—Hilda, aged 6, and Phyllis, aged 5, daughters of H. Heath arrived here recently, after travelling all the way from England unattended. They were put on the train at Sheffield, England, tagged like merchandise, a broad leather belt surrounded the waist of each, with painted letters reading "To Heath, Strathcona, Alberta, Canada, per Empress of Britain, care C. P. R."

The little girls were met at the station by their happy parents. They had cartloads of toys between them, given by the passengers. The only fear of the parents is that the kiddies may have been spoiled by the petting and care they received.

C.N.R. BUILDING IN BRAZEAU

Cornwall Applying for Charter Under the Name of the Canadian Northwestern

Edmonton.—Under the name of the Canadian Northern railway, the Canadian Northern railway is applying to the Legislature for a provincial charter covering the road which is now building from Stettler northwest into the Brazeau coal fields and sixty miles of which has been already constructed. The charter is in the hands of James K. Cornwall, Peace River, and the petition for the charter was introduced by him in the legislature recently.

Secures Big Land Tract

Edmonton, Alta.—A big land deal was put through here recently when an English banker acquired 25,000 acres of land in the Lashburn district for \$300,000, for the purpose of settling it with the best class of British farmers. The property is located between the Canadian Northern and Grand Trunk Pacific railways, and is suited to wheat raising and mixed farming.

Grand Trunk Won't Sell

Edmonton.—The Grand Trunk Pacific have refused the request of the city to sell a quarter section adjoining their yards north of the city for use as industrial sites.

South Africa Gives Liberally

Capetown, South Africa.—South Africa's contribution to the imperial navy is £86,600 annually.

RECOGNIZING THE WEST

The Two New Provinces Will Get Additional Rhodes Scholarship

Vancouver, B.C.—There are twenty-four Rhodes scholars from Canada now attending Oxford. Alberta and Saskatchewan will later be given an additional scholarship.

"The representation from these provinces is a joint one at present," said D. G. Parkin, in an interview here. The organizing secretary of the Rhodes trust and former principal of Upper Canada college, Toronto, arrived here from Los Angeles, and will leave in a few days for Alberta, Saskatchewan and Manitoba, visiting Idaho and Montana cities enroute.

Dr. Parkin stated that there are 180 Rhodes scholars now in residence at Oxford, 90 being Americans from the states in the Union, the 180 representing an expenditure by the trustees of one million dollars every three years, the duration of the course.

"Several of the states," continued Dr. Parkin, "have not been able to furnish men up to the standard we require. I have lately been discussing the American position with their leading educationalists, and they are all agreed that we might attain greater results by some modification of the scholarships."

"This, however, is a matter that will be decided by the board of trustees, which includes Lord Rosebery, Lord Milner, Earl Grey, Dr. Jamieson, Sir Louis Michell and Mr. B. F. Hawkesley, a distinguished London solicitor."

The seventh member was the late Mr. Alfred Belt, who died three years ago, leaving ten million dollars to back up Mr. Rhodes' ideas in South Africa.

"American students at Oxford tell me that there is no university in the United States where they could get so wide or comprehensive an acquaintanceship with their countrymen as at Oxford, since there are usually two selected students from each state of the Union."

SURVEYOR MACOUN ICEBOUND

He Was Expected Back in the Early Part of November, But Has Not Returned

Ottawa.—Fears are expressed here that Mr. James Macoun, son of Professor J. Macoun, who has been engaged on survey work for the geological survey, may have had the ill-luck to be icebound with a schooner up in Hudson Bay, where he was searching for specimens.

Mr. Macoun left Fort Churchill at the same time as Prof. R. W. Brock, head of the survey here. He embarked in a schooner which was to sail out of Hudson's Bay along the coast of Labrador and down the eastern coast, allowing plenty of time for hunting, fishing and collecting specimens.

Mr. Macoun was expected back in early November, but as yet no word has been received of him. There are a hundred things that might account for Macoun's absence, stated Prof. Brock when enquiries were made. "I don't think he has been frozen in up there; in any event the ship is well provided with supplies."

NAVAL AIRSHIPS NOW WANTED

U. S. Officials Impressed With Possibilities After Ely's Flight From Cruiser

Washington.—The next step which the United States navy will take in its study of airships to determine the extent of their practical value from the standpoint of war, will be to test the possibility of aerial craft landing on a warship.

This was indicated by officials who are convinced, as a result of Aviator Ely's flight, that the airship would play an important part in the naval warfare of the future. Officers of the navy generally believe that its principal usefulness to a fleet in the time of war will be for scout duty. The question of landing an airship on a vessel presents many difficulties. Some experts believe a net could be stretched to receive an airship and protect it from turrets and other obstacles, while others think it would be necessary to equip the machine with pontoons, so that they might descend in the water beside the war vessels. The department, it is said, undoubtedly will acquire a few machines in the not distant future.

DIED OF A BROKEN HEART

Privation and Worry Over Son's Fate Caused Breakdown—Was in a Pitiful Condition

Los Angeles, Cal.—Myron Crippen, aged 83, father of Dr. H. H. Crippen, convicted of murder in London, died here as the direct result of privation and worry over his son's fate. Since Crippen was arrested the aged man has been penniless and dependent on charity.

Physicians said the old man's death was due to lack of nourishment and nervous strain. Ever since the doctor's arrest the regular remittances he used to send his father have ceased.

The elder Crippen's plight was pitiful. For several weeks he had haunted the news stands patiently awaiting editions containing news of his son.

Protection for Australia

Melbourne.—The Australian Labor party in the commonwealth parliament is deeply interested in the forthcoming imperial conference, at which Premier Fisher will represent the commonwealth. It is certain he will be no party to forcing food taxation on the British workmen and he frankly accepts protection as the only policy for Australia.

WILL OPEN UP NORTH

CANADIAN NORTHERN WESTERN RAILWAY WANTS CHARTER

A Bill Authorizing the Construction of a Road Through Northern Alberta Receives a Second Reading—Mr. Cornwall, Member for Peace River, Gives a Glowing Description of Country That Will be Opened Up.

Edmonton.—That the Canadian Northern Western railway, for which a charter is asked at the present session of the legislature, will open up to settlement twenty million acres of land in northern Alberta, all as good as the land between Edmonton and Red Deer, was the statement made by Mr. Cornwall in introducing the bill for the charter.

In addition there was, he said, three and a half million acres in British Columbia, which have to northern Alberta the closest connection with the greatest goldfields in the world, in the Yukon.

The Peace River member pointed out that the railway would cross Athabasca at Little Smoky Simonette and Big Smoky rivers, where magnificent timber would be brought within easy access of the railway.

The Act also provides for the building of a branch line from a point on the C. N. R. line from Vegreville to Calgary between townships 38 and 39 to Brazeau coal fields.

"Here is coal of the highest quality in America," said Mr. Cornwall, "just awaiting a railway so it may be put on the market. At the present time the German Development company have orders for 5,000 tons a day, but have to suspend operation till they get guarantee of transportation."

Mr. Walker, who also made a trip through the north country to be tapped by a railway, in the Klondyke rush of 1898, added his testimony to that of Mr. Cornwall. The country, he said, was magnificent in soil, timber and mineral wealth.

The bill was given its second reading and after the house adjourned it was considered by the railway committee.

SMALLER HOUSE OF LORDS

Lord Rosebery's Resolution to Reduce Number of Peers Passed

London.—A fresh feature in the political situation is the passing of Lord Rosebery's principal reform resolution in the house of lords.

The apparently authoritative announcement is current that Premier Asquith intends passing the budget before the dissolution.

During the debate in the lords, Lord Lansdowne intimated that he would accept a smaller upper chamber with only half the hereditary peers, the other half to be nominated by the government of the day. The Earl of Crewe watched the passing of the Rosebery resolution with indifference. It is thought possible that if Lord Lansdowne decides to go on with the bill for the removal of the lords' veto, he will be preparing for an ultimate piece-meal surrender.

The opinion pending Premier Asquith's statement is still firm for an election before Christmas.

PORTUGAL THREATENED

A Revolutionary Group Trying to Hold Up Government—Can Muster 10,000 Men

Paris.—A despatch to The Temps from Lisbon says that the peace of Portugal is menaced by the attitude of groups called Carbonari, who participated in the revolution.

They refuse to disarm and are embarrassing the government by their imperious demands. They say they are ready to place 10,000 fighting men in the streets if their demands are not complied with.

Their leader, a naval officer named Machado was active in the revolution. The government's proclamation granting the right to strike has led to the general abuse of this prerogative and it is feared that a strike which has been inaugurated by the tramway workers, the river boatmen and electricians will be followed by a strike of railway employees and the gas men.

Investigate Chinese

Ottawa.—Hon. Denis Murphy, of the supreme court, has been named a Royal commissioner to investigate the Chinese immigration irregularities on the Pacific coast and also to enquire into the operations of the act governing the sale of opium. The commission will take as a basis of his enquiry the results of the recent departmental enquiry into the Chinese immigration irregularities which resulted in the sending back to China of a number of Chinese carrying false certificates as merchants returning to Canada. He will be assisted by George E. McCrosson, barrister of Vancouver, as counsel.

To Circle Globe With Submarines

London.—The announcement is made in naval circles that early in 1911 a British flotilla of submarines will be sent to Hong Kong and permanently stationed there. Other flotillas of the same craft will be sent later to Gibraltar and other stations.

The Latest Patriotic Movement

The Over-Seas Club, organized by the "Over-Seas" Daily Mail. Its Object is to make Stronger Bonds of Brotherhood Through the British Empire

Mr E Farmer has been appointed Secretary pro-tem of the local branch of the Overseas Club, in order that our readers will fully understand what the "Over-Seas Club" aims to do and the reason for its organization. We publish below the first appeal made by the "Overseas Daily Mail" to British subjects when that paper first embarked on the enterprise of forming this fast growing league.

For some time our readers have felt that the time was ripe for the establishment of an organization to draw together in the bond of comradeship the peoples now living under the folds of the British flag. Correspondents have pointed out that The Over Seas Daily Mail by reason of its unique world-wide circulation, is possibly the only journal in the British Empire capable of successfully undertaking the formation of such an association.

We have decided, therefore, to found a league to be called "The Over-Seas Club." From all parts of the British Dominions beyond the seas and from foreign countries we have received valuable suggestions as to the objects of the club. We have the rules extremely simple so as to make the scope of the organization as far-reaching as possible.

No entrance fee of any kind will be charged, nor will there be any annual subscription. A beautifully printed card of membership will be forwarded to every British citizen who approves of the objects and who sends his address to the Organizer, the Over-Seas Club, Carmelite House, London, E.C. England.

A form of application for membership is provided which those willing to become members are requested to forward to the above address without delay.

The Over-Seas Club is strictly non-party, non-sectarian, and is open to any British citizen. Membership entails no financial liability and under no circumstances will the club be used for commercial purposes. Doubtless, in time, it may be found necessary to amend or add to the rules, but the underlying objects of the Over-Seas Club will always be those printed below.

An important feature of the new

organization will be the institution of a correspondence club by means of which lonely readers will be put into touch with fellow-members in all parts of the world.

The first thousand members to join the Over-Seas Club will receive a special Founders' Certificate printed on vellum. As soon as this number has been reached a complete list of the thousand original founders of the Over-Seas Club will be forwarded to each individual. Under no circumstances will any further founders' certificates be issued, and it is hoped that in future years these souvenirs will have considerable historic value.

An equal opportunity of joining will be offered to every British subject, no matter how far he may be from London. Applications will be considered according to the length of time that elapsed between the hour of the receipt of this week's issue of The Over Seas Daily Mail by the subscriber and the date of the postmark on the letter bearing his application.

For the first twelve months the Editor of the Over-Seas Daily Mail has consented to act as Organizer of the Over-Seas Club, and his decision must be regarded as final.

It is hoped ultimately to obtain members of the Over-Seas Club in all parts of the world. Ladies or gentlemen prepared to organize local branches and ready to act as secretaries are requested to communicate with the organizer.

Every reader of the Over-Seas Daily Mail is invited to forward suggestions as to the work and future development of the Over-Seas Club. A register of members will be kept at headquarters, and all changes of address should be notified.

Will every reader of this journal in sympathy with the objects of the league help on the work which lies ahead of us by persuading one of his friends to become a member? Let it be again repeated that the Over-Seas Club is open to all British citizens, whether readers of this journal or not. The Organizing Committee reserve to themselves the right of refusing to admit anyone as a member should they consider it in the interest of the Club to do so.

We sailed whenever ships could sail—
We founded many a mighty state;
Pray God our greatness may befall—
Through craven fears of being great,
TENNYSON.

MEMBERS' CREED

Believing the British Empire to stand for justice, freedom, order, and good government, we pledge ourselves, as citizens of the greatest Empire in the world, to maintain the heritage handed down to us by our fathers.

THE OBJECTS OF THE OVER-SEAS CLUB

To help one another. To urge on every able-bodied man the necessity of being able to bear arms. To draw together in the bond of comradeship the peoples now living under the folds of the British flag. To insist on the vital necessity to the Empire of British supremacy on the sea.

Blood-Poisoning From Cut Finger

Serious Condition Relieved by Zam-Buk

Mr. Jas. Davey, of 786 Ellice Ave., Winnipeg, says: "A few months since I was cured of a poisoned finger through the timely use of Zam-Buk. I cut a deep gash across the knuckle on the first finger of the right hand, in opening a lobster can one evening. I suffered at the time with the soreness and pain, but had no idea it would become a serious wound. However, in about two days I was greatly alarmed, as my whole hand and arm to the elbow became inflamed, and the finger was much discolored, showing signs of blood-poisoning. The pain was dreadful and I was forced to leave off my work and go home."

"The wound on the knuckle had been poisoned through the dust and dirt about the furnaces and boilers. I then decided to start the Zam-Buk treatment, and having first bathed the cut, I applied the healing balm. It soothed the pain almost instantly, and by the next day there was a great improvement. In a week's time, through perseverance with Zam-Buk, a complete cure was brought about."

Scores of similar cases could be quoted, and the wisest precaution is to keep a box of Zam-Buk handy and apply it immediately a cut, or burn, or bruise is sustained.

Zam-Buk will also be found a sure cure for cold sores, chapped hands, frost bite, ulcers, eczema, blood-poison, varicose sores, piles, scalp sores, ringworm, inflamed patches, babies' eruptions, and chapped places, cuts, burns, bruises and skin injuries generally. All druggists and stores sell at 50c. a box, or post free from Zam-Buk Co., Toronto, upon receipt of price. Refuse imitations and substitutes.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Portugal in America
Probably the deposed king of Portugal doesn't know it—for he is not credited with being much interested in his subjects, much less his ex-subjects—but there are 50,000 of his countrymen in the United States. Massachusetts runs strong with them, having about 15,000. Little Rhode Island has 2,500. Probably they will all be content not to go back to the new republic, but to stick to this one. Portugal is a synonym of poverty.—Chicago Inter-Ocean.

After waiting for several weeks without hearing about her story, the amateur author wrote the magazine editor, requesting an early decision, saying that she had "other irons in the fire." SCIATICA

He was in agony when a friend gave him a box. Now he recommends them to everybody.

Newcastle, N.B. (Special).—In these cold fall days when the chill winds crystallize the uric acid in the blood and cause the pangs of Rheumatism and Sciatica to bring sleepless nights to many a home, a man's best friend is he who can tell his neighbor of a sure cure for his tortures. Such a friend is Wm. F. Black of this place. He suffered from Sciatica and lame back. He was so bad that he could not lace his boots or turn in bed. Dodd's Kidney Pills cured him and he wants all his neighbors to know of the cure.

"Yes," Mr. Black says, in an interview, "I was so bad with Sciatica and Lame Back that I couldn't lace my shoes or turn in bed, when a friend gave me about a third of a box of Dodd's Kidney Pills. I started taking them without much faith in their curative powers, and found them all they were recommended."

"Now I am recommending Dodd's Kidney Pills to all sufferers from Kidney Disease."

Dodd's Kidney Pills are no faith cure. They're a simple but sure cure for diseased kidneys.

A MOTHER'S PRAISE

Mothers are always willing to shower their praises on a medicine that not only relieves their precious little ones from pain but removes the cause and keeps them well, bright, active and happy. Such a medicine is Baby's Own Tablets. No other medicine for little ones has received such praise from thousands of thankful mothers. These Tablets never fail to relieve the little ones from any of the many little ills that afflict them. Mrs. Thos. Hodgson, Riviere du Loup Station, Que., writes: "I always keep Baby's Own Tablets in the house and have given them to my two little ones with the best results. I always recommend them to my friends as they are a grand remedy." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

"This dog, madam," said the dog-fancier proudly, "would be cheap at \$20." The other wavered. I should like him," she said, "but I'm afraid my husband might object." "Madam," said the dog-fancier, "permit me to suggest that you should not allow that to sway you. You can get another husband much easier than a dog like this."

Can't Understand
One of the things a woman cannot understand is why a man would rather read accounts of the ball games than love stories.
